CIRCULAR.

To those engaged in mercantile pursuits, any invention that will facilitate their labors, is highly worthy of notice as well as extensive patronage. One of the most important inventions of the present age, is that of a pen that possesses the necessary qualities of fineness in mark and durability in use.

Pre-eminently such are those of JOHN FOLEY, Manufacturer of fine Gold Pens and Pencils. Their superior value is tested by the long time he has been engaged in our city in their manufacture. We, the subscribers, who know the value of Foley's Pens from constant use of them for a number of years, cheerfully recommend them to those who wish for the best and most perfect Gold Pen ever made.

Signed by the following leading Merchants and Bankers of New York City, and over one thousand others:
